Ecology has **MODIFIED** the decision of the Board as follows:

- 1) The summary table and text throughout the ROE/ROD are changed to reflect the quantities, purpose of use, and period of use authorized under certificate S4-29443C. The place of use is corrected to reflect the actual location of the irrigated acreage, as per the board's decision.
- 2) Provisions are as currently provided on certificate S4-29443C. In addition, the following provisions will apply;

An approved measuring device must be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.

Department of Ecology personnel, upon presentation of proper credentials, must have access at reasonable times, to the records of water use that are kept to meet the above conditions, and to inspect at reasonable times any measuring device used to meet the above conditions.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.
